

CABO SHARK DIVE

CABO SHARK SNORKEL

A unique Eco-tourism experience with the objective of changing perspectives about sharks, connecting with nature, and enjoying the ocean.

Our passion is sharks and our objective, as a shark tourism operator, is not only to provide an unforgettable interaction with sharks for our guests, but for those interactions to mean something beyond the experience. We strive to instill in our guests a respect and understanding of sharks as well as the surrounding ocean environment. All while fostering a fun and safe encounter with pelagic sharks.

CABO SAN LUCAS IS UNIQUELY LOCATED AT THE JUNCTION OF WHERE THE PACIFIC OCEAN MEETS THE SEA OF CORTEZ. THIS CREATES A HIGHLY PRODUCTIVE AND BIOLOGICALLY DIVERSE AREA. THESE WATERS ARE SEASONALLY HOME TO SHARKS SUCH AS SILKIES, MAKOS, BLUES, AND SMOOTH HAMMERHEADS. AS THE OCEAN TEMPERATURE CHANGES THROUGH THE YEAR, THE SPECIES OF SHARKS WE ENCOUNTER ALSO CHANGE. USE THE CALENDAR TO FIND OUT WHEN IS THE BEST TIME TO ENCOUNTER YOUR FAVORITE MARINE LIFE.

Providing the Best Ocean Wildlife Encounters Baja has to offer!

We are a proud shark diving company with more than 16 years of experience working with shark species around the world. Our founders, Jacob Brunetti and Miguel Angel Elicechi Constantini, collaborated to pioneer Cabo San Lucas as a pelagic shark diving destination. Their experience, backgrounds, and local knowledge have been an effective combination in creating a company committed to exploration, education, and inspiration. Cabo Shark Dive is proud to be the first and most recognized shark tourism company in Cabo.

Join us to see the Cabo Shark Dive difference! Our experienced and knowledgeable guides will take you to the best sites where these pelagic species are consistently found. Typically a 20-30min boat ride from the marina. Learn about shark biology, behavior, conservation and more from our naturalist guides. After the briefing, you will feel prepared to enter the water and the experience will be even more significant with your new knowledge about sharks.
